COMPANY PROFILE

www.furapetenergyservicesltd

The background of the page is a composite image of an industrial facility. On the left, a large, dark, segmented vertical pipe or chimney is visible. On the right, a complex network of pipes, metal structures, and walkways is illuminated with warm yellow light. A large, curved pipe runs diagonally across the lower right portion of the image. The overall color palette is dominated by deep blues and purples, with the industrial lights providing a contrasting yellow and orange glow.

Introduction

Furapet Energy Services (Pty) Ltd Namibia is a diversified oil, gas, and power solutions provider delivering integrated Engineering, Procurement, Construction, and Maintenance (EPCM) services across upstream, midstream, and downstream operations. Headquartered in Windhoek, Namibia, the company's mandate covers a wide scope of activities including civil, electrical, mechanical, and instrumentation services for oil and gas facilities and power plants.

Our operations extend to oil and gas product marketing and supply, drilling and wellhead maintenance support, and the erection, testing, and commissioning of power plants, including boilers, turbines, generators, critical piping systems, balance of plants, electrostatic precipitators (ESP), coal handling plants (CHP), bunker erections, welding and fabrication (pipelines and structural welding) and all kinds of mechanical erections.

In addition, we specialize in onsite machining and support services such as torquing and tensioning, flange facing, online leak sealing, valve testing, electric motor overhauls, scaffolding, welding and fabrication, blasting, painting, and advanced coating. We also provide heat exchanger cleaning, cathodic protection, industrial and domestic waste management, and oilfield equipment rentals.

Beyond technical services, Furapet Energy Services Pty Ltd Namibia supplies skilled manpower (local and international) and delivers comprehensive logistics support, ensuring that clients have access to end-to-end solutions across the energy and industrial value chain. By combining technical expertise with global best practices, we are committed to delivering safe, reliable, and innovative solutions that meet the dynamic energy needs of Africa and beyond.

About **us**

At Furapet Energy Services Pty Ltd Namibia, we are driven by the mission to power growth and sustainability in Africa's energy sector. Our services span from specialized engineering services to complex power plant commissioning and industrial waste management.

We create partnerships that drive efficiency, innovation, and long-term value for clients, communities, and stakeholders.

Mission

To provide world-class oil, gas, and power solutions through technical excellence, integrity, and commitment to client

Vision

To be Namibia's most trusted partner in energy and industrial services, known for reliability, innovation, and sustainable impact.

Brand Promise

Delivering energy and industrial services with precision, safety, and innovation every time.

Core Values

1

Integrity

Upholding honesty and transparency in all dealings.

2

Excellence

Striving for world-class service delivery.

3

Innovation

Leveraging new technologies for smarter solutions.

4

Safety

Prioritizing lives, communities, and the environment.

5

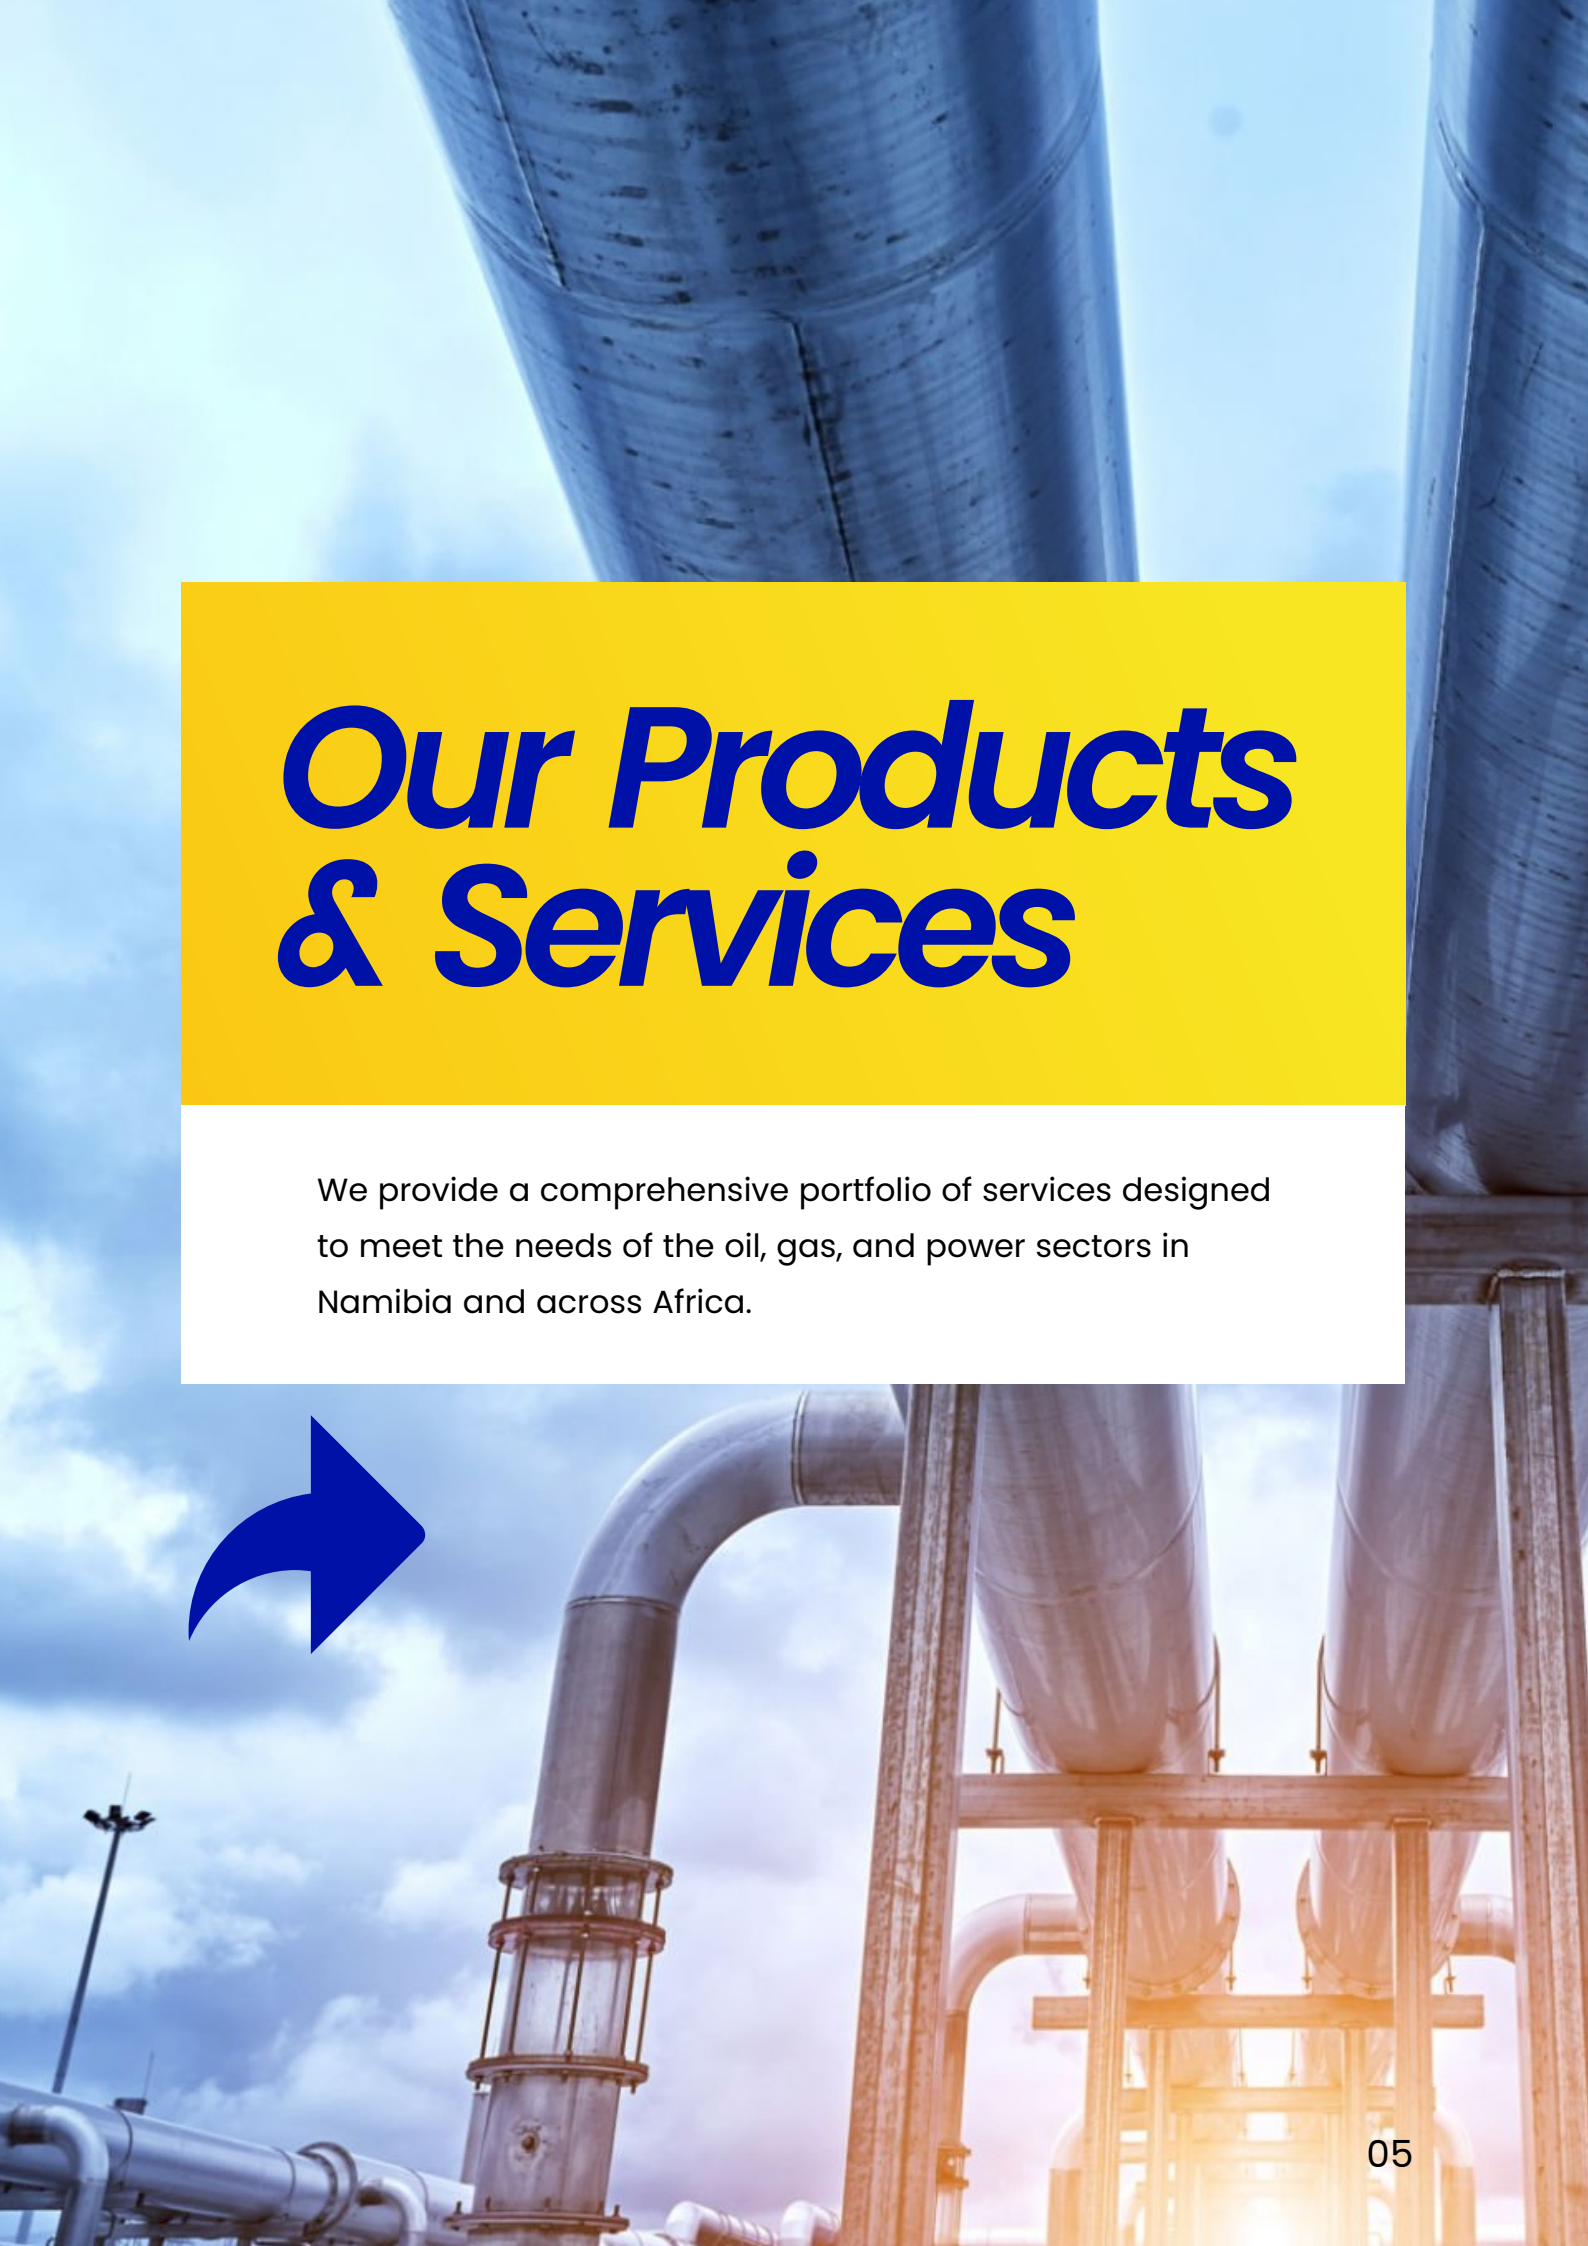

Sustainability

Creating long-term value with responsible practices.

6

Collaboration

Building lasting partnerships with clients and stakeholders.

Our Products & Services

We provide a comprehensive portfolio of services designed to meet the needs of the oil, gas, and power sectors in Namibia and across Africa.

1. EPCM Solutions Across the Energy Value Chain

We deliver turnkey EPCM services in the upstream, midstream, and downstream sectors. Our expertise covers civil, electrical, mechanical, and instrumentation works for oil, gas, and power infrastructure. From concept to commissioning, we ensure every project meets global quality and safety standards.

2. Oil & Gas Marketing and Supply

We market, procure, and distribute oil and gas products, ensuring reliable supply chains that serve industries, power plants, and communities. Our operations are designed to guarantee efficiency, competitive pricing, and compliance with international regulations.

3. Drilling and Wellhead Maintenance Support

We provide end-to-end drilling and wellhead maintenance support, including equipment supply, technical maintenance, and specialized manpower. Our services are designed to optimize well performance and extend asset lifespan.

4. Power Plant Erection, Testing & Commissioning (ETC)

We specialize in the erection, testing, and commissioning of power plant components including:

- | | | |
|-------------------------------------|--|---------------------------|
| ➤ Boilers, turbines, and generators | ➤ Power cycles and critical piping systems | ➤ Balance of plants (BOP) |
| ➤ Electrostatic precipitators (ESP) | ➤ Coal handling plants (CHP) | ➤ Bunker erections |

Through precision engineering and safety-focused execution, we ensure reliable, efficient, and sustainable power generation.

5. Onsite Machining & Technical Support Services

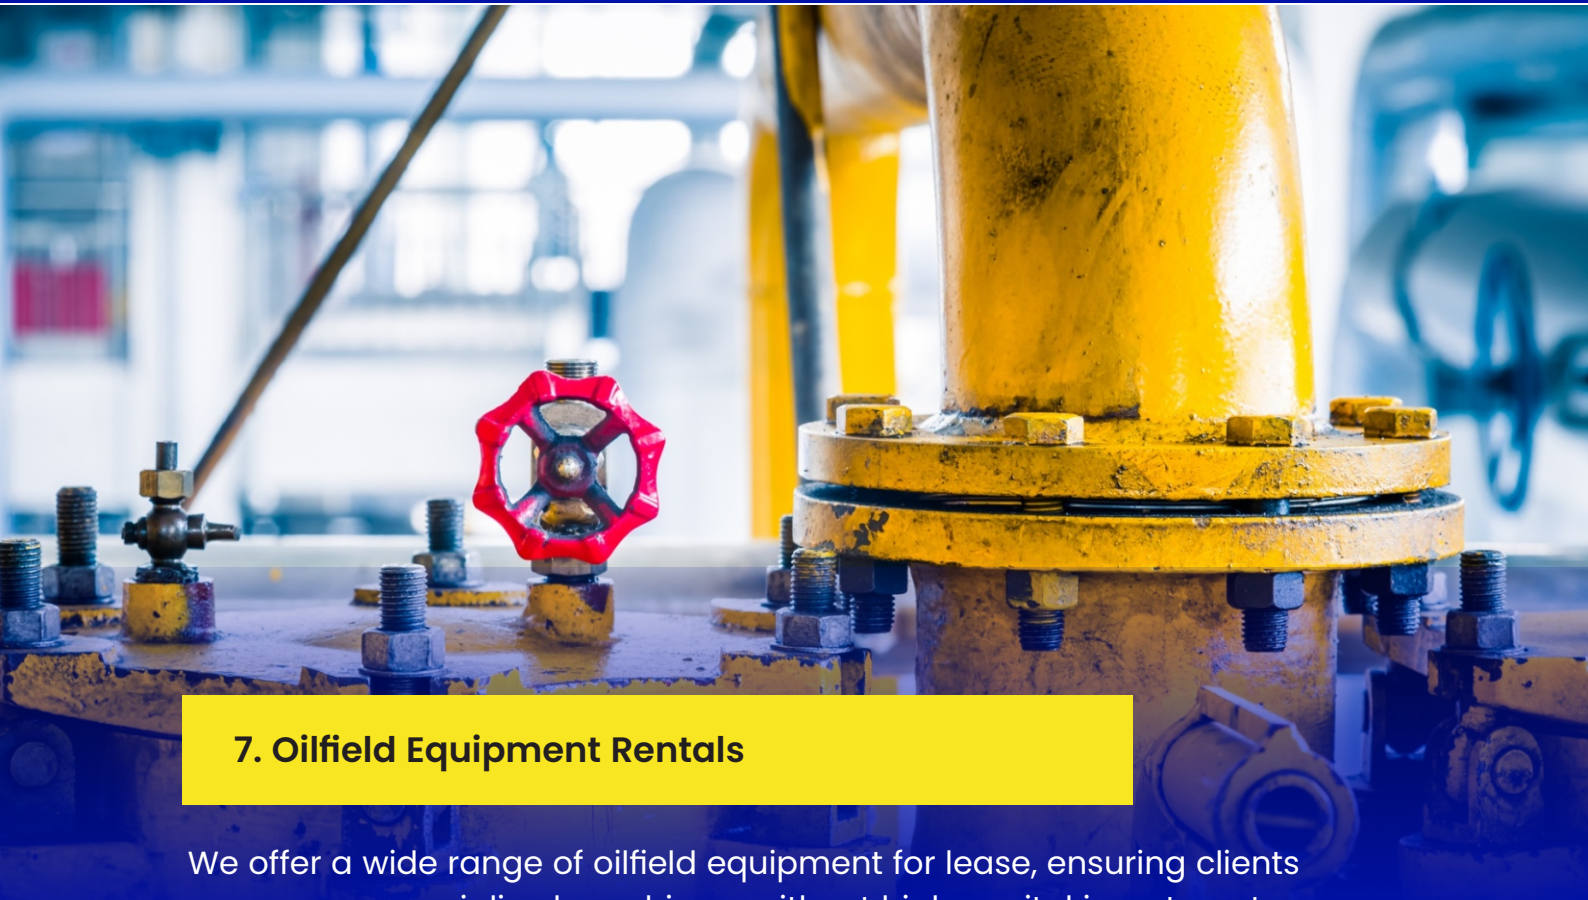

Our onsite solutions help clients minimize downtime and extend equipment life. Services include:

- Torquing and tensioning
- Flange facing
- Online leak sealing
- Online valve testing
- Electric motor rewinding/overhaul
- Valve and level gauge maintenance
- Welding and fabrication (structural & pipeline)
- Scaffolding, blasting, painting, and advanced coating solutions
- Heat exchanger cleaning and cathodic protection.

6. Industrial & Domestic Waste Management

We provide environmentally responsible waste management solutions, handling industrial by-products, oilfield waste, and domestic refuse. Our methods prioritize safety, compliance, and sustainability.

7. Oilfield Equipment Rentals

We offer a wide range of oilfield equipment for lease, ensuring clients can access specialized machinery without high capital investment.

8. Manpower Supply (Local & International)

We recruit, train, and supply skilled professionals tailored to the needs of each project — from engineers to technical field operators. Both local and expatriate personnel are available to meet industry demands.

9. Logistics Support Services

Our logistics arm ensures smooth movement of equipment, materials, and personnel. We provide end-to-end transportation and supply chain solutions, supporting both local and international operations.

Partnership

Furapet Energy Services (Pty) Ltd Namibia has entered into a strategic partnership with Northern Energy Innovations (NEI), UK — a global leader in downhole drilling and completion tools, artificial lift systems, sand control technologies, and well construction solutions.

Through this collaboration, Furapet Energy gains access to NEI's best-in-class manufacturing capabilities, API/ISO-certified equipment, and innovative oilfield technologies, enhancing our ability to deliver cutting-edge drilling, completion, and production support services in Namibia and across Africa.

This partnership reinforces our commitment to offering clients integrated, world-class solutions while positioning Namibia as a hub for modern oilfield technologies.

Why Choose Us

1

Comprehensive Energy Solutions:

Covering oil, gas, and power plant services under one roof.

2

Technical Expertise:

A team of seasoned professionals with proven industry experience.

3

Safety & Quality Assurance

Strict adherence to international safety and quality standards.

4

Client-Centered Approach:

Solutions tailored to client needs and project requirements.

5

Global Standards, Local Impact:

Delivering international best practices while supporting Namibia's industrial growth.
